1974-1985: Study and construction of an oxygen consumption measurement device (Coordinator);

1978-1986: Study and construction of a computed tomograph scanner (Coordinator).

Recent major projects in Healthcare Building (Head and/or Coordinator)

ONCOLOGY CENTRES

Modena - Hospital: Modena Oncology Centre

Bologna - S.Orsola Hospital: Technology Pole (Cyclotron, Radiopharmacy, Nuclear Medicine, Radiotherapy).

Meldola (FC) - I.R.S.T. (Romagna Institute for Cancer Research): New Oncology Pole

Pesaro - S.Salvatore Hospital: New Oncohaematology Pole in Muraglia.

Bologna –S.Orsola Hospital: New Oncology Pole

EMERGENCY DEPARTMENTS

Milan – Fatebenefratelli Hospital: New Emergency Department Admissions Area

Genoa - S.Martino Genova Hospital: New Emergency Department Admissions Area

Ravenna - S.Maria delle Croci Hospital: New AED

Rimini - Infermi Hospital: Extension and renovation and new AED

Imola – Public Hospital: New AED

OTHER DESIGN PROJECTS

Porretta Terme (Bologna): New Hospital

Extension and renovation of hospitals in Budrio, Bentivoglio, Vergato, Bazzano

Major CONSULTANCY *building programmes, business plans and feasibility studies*

Milan Hospital, Modena Hospital, S.Orsola Hospital, Extension of Forli Hospital, Bologna Bellaria Hospital – New Neurology Pole, Modena – New Public Hospital, Reggio Emilia –

Gabriele Zingaretti is a member of the Executive Board of CNETO (National Centre for Hospital Building and Technics) and the Executive Committee of the Zanetti Association.

He has lectured at national and international conferences and has published 45 articles on topics relating to his professional activity. He has held courses and seminars at the Faculties of Medicine and Engineering at the University of Bologna, Faculty of Engineering in Aquila, the SDA Bocconi in Milan, and at various Health Authorities.

Bologna, November 2011
